

## GLASSHOUSE

This slick men's grooming emporium is the first of its kind in Cape Town – remarkable that it's taken so long for someone to spot the gap in the burgeoning male beauty market. It was worth the wait. Glasshouse, Rejuvenation for Men caters for the man on the run with a 15-minute 'Exec Pit Stop' facial, manicure, pedicure or massage, but also offers a wide selection of treatments and invigorating packages. And all this in a distinctively decorated, masculine though not clinical environment that takes the pink out of pampering.
